

CONTENTS

MINING SCIENCE

1. **Sobko B., Lozhnikov O.** Investigation influencing factors on the technological chart choosing at the surface mining of flooded titanium zirconium deposits....7
2. **Kurliak A.** Determining the ignition property of a test sample of a safety emulsion explosive of class IV.....18
3. **Masyk O., Kuchin O., Belichenko O.** Investigation of subsidence process angular parameters during secondary underworking in the conditions of Western Donbas.....27
4. **Cheberiachko S., Yavorska O., Yavorskyi A., Naumov M., Ikonnikov M.** Development of safety work system at mining enterprises...37
5. **Cherniaiev O.** Substantiation of rational development depth for non-metallic mineral deposits with internal dumping.....51
6. **Shavarskyi Ya.** The issue of increasing the efficiency of mining on sloping layers..66

ENVIRONMENT PROTECTION TECHNOLOGIES

7. **Bondarenko V., Filonenko O.** Analysis of the accumulation and influence of metallurgical slag to the environment.....78
8. **Voytenko Y., Levytska O.** Residential areas environmental safety improvement in the atmospheric air intensive pollution zones.....94
9. **Kovrov O., Omelchenko V., Kozachenko A.** Analysis of air pollutants chemical transformation in the atmosphere of urban and industrial territories...103
10. **Kolesnyk V., Pavlychenko A., Moniuk I.** Assessment of resource-saving and environmental effects in the system «boiler room – heat consumers – environment» from insulation of external walls of houses.....116
11. **Pavlychenko A., Buchavyi Y., Khalak A.** Forecasting of atmospheric air pollution rates from drilling and blasting operations on iron mining quarries....129

MATERIALS SCIENCE AND INDUSTRIAL MACHINE-BUILDING

12. **Ziborov K., Rott N., Pismenkova T., Fedoriachenko S.** Quality as an object of modern industrial production management.....143
13. **Kukhar V., Kurpe O.** Determination of rheological analogy of lead and steel for flat hot-rolled products.....153
14. **Laukhin D., Dadiverina L., Tverdohleb A., Matsyuk I.** Analysis of additive 3D-printing technologies application in the construction industry...163

APPLIED MECHANICS, CONSTRUCTION AND CIVIL ENGINEERING

15. **Zhuravel O.** Substantiation of extension of zones of application of new drilling cores in mining production technologies.....178
16. **Kravchenko Yu., Derbaba V., Smagin D.** Determination and relationship between shift and friction angles in chapter formation.....193
17. **Petrenko V., Netesa M., Tiutkin O., Gromova O., Kirichenko P.** Mathematical models in water supply and water discharge problems.....202
18. **Chigirinsky V., Naumenko O., Ovchynnykov A.** New approaches to solving plane problems of continuum mechanics in polar coordinates using the argument functions method.....209
