

CONTENTS

MINING SCIENCE

1. **Sobko B., Kardash V.** Creation of a digital three-dimensional mining-geological model of the Motronivsko-Annivsky placer.....7
2. **Anisimov O.** The method of determining the direction of deepening of a pit floor.....16
3. **Zaikina D., Schwager N.** Modernization of complex of technical solutions by means of implementing device for transmitting an alarming signal of RFID tag.....26
4. **Lozhnikov O., Dychkovskiy R.** Обґрунтування параметрів техногенного родовища у внутрішньому відвалі при відкритій розробці розсипних родовищ.....39
5. **Malashkevych D., Petlovanyi M., Postol N., Postol M.** Analysis of the mined coal quality and ways of enhancement it in the Western Donbas mines.....53
6. **Sadovenko I., Zahrytsenko A., Dereviahina N.** Justification of options of ecological protection of mine field areas in conditions of groundwater level recovery.....65
7. **Tymoshchuk V., Sherstiuk Y., Lozoviy A.** Comprehensive assessment of the hydrodynamic and geomechanical state of the eastern side of PJSC "InGZK" open pit according to prospective mining expanding.....77
8. **Fesenko E., Pavlov Ye.** Validation of the use of mine roof rocks explosive unloading to increase the efficiency of metal frame support.....88
9. **Cheberiyachko Yu., Boyko O., Knish I., Yurchenko A., Shustov O.** Estimation of adjustment density elastomeric half-mask to the face.....100
10. **Shyrin L., Iniyutkin I., Shyrin A.** Directions of methods improvement of assessing operational indicators of load haul dump machines in the development of uranium deposits.....112

ENVIRONMENT PROTECTION TECHNOLOGIES

11. **Ivanenko O., Trypolskyi A., Gomelya M., Radovenchik V., Overchenko T.** Kinetics of the process of oxidation of carbon monoxide on a zeolite-based manganese oxide catalyst.....126
12. **Pavlychenko A., Haidai O., Firsova V., Ruskykh V., Tkach I.** Technological directions of coal enrichment waste processing.....139

MATERIALS SCIENCE AND INDUSTRIAL MACHINE-BUILDING

13. **Belmas I., Kolosov D., Chechel T., Vorobiova O., Chernysh O.** Influence of change during the mechanical properties of rubber on the stressed state of a rubber traction body with a damaged cable.....149
14. **Ziborov K., Fedoriachenko S., Beshta O., Lutsenko I., Malienko A., Khudoliy S.** Kinematic parameters of shovel excavator substantiation.....156
15. **Kravchenko Yu., Patsera S.** Calculation of the components of cutting force on the front surface of the abrasive grain.....168

16. Moklyak V., Hrubiak A., Koveria A., Svetkina O. Mechanisms of electrochemical activity in lithium power sources based on nanocomposites of $\text{FeF}_3 / \text{Fe}_2\text{O}_3$	177
17. Shatov S., Matsyuk I., Shlyahov E. Construction of closed lightweight gears.....	187
<i>APPLIED MECHANICS, CONSTRUCTION AND CIVIL ENGINEERING</i>	
18. Kolosov D., Bilous O., Tantsura H., Onyshchenko S., Chernysh O. Influence of deviations of location of mining hoist vessel on stressed state of head rubber-cable rope.....	196
